Modify vehicle characteristics:

Note: This procedure involves editing a game file; create a backup copy of the file before proceeding. Use a text editor to edit the "handling.cfg" file in the "rockstar games\gta san andreas\data" directory. You will find a list of all the vehicles and a description of each multiplier factor. You can modify the acceleration, top speed, mass, monetary value, transmission, gravity center, and much more.

Homie house portrait:

Target your homies and press **G** until you have three of them. Then, press it before you go into your house making sure they are following you. Go to the save point and press **G** before you go through it. When you have saved you will see your homies standing there. **Note:** This may require a few attempts.

Glitch: Flying Jetmax II:

Get the Jetmax II at the sand and push it back to the water. Run into some pedestrians and one may get stuck inside the Jetmax II. Get into water and hit the gas. [\[Screenshot\]](#)

Glitch: Secret interiors:

Go to the Ganton gym in Los Santos and kill all four people. Enable the rocketman code to spawn a Jetpack. Go to the entrance and fly up until you exit out the top. Then, fly to the east two blocks. You will see a yellow marker. Land around the marker and take off the Jetpack. Walk into the marker and you will be in a secret room. It resembles a hotel or strip club). Then enable the rocketman code again and use the Jetpack to fly up and look around. Next to that room, you will see another. Fly to it and look for the entrance. Fly to it and you can fly around the level.

Glitches :

Early and riskfree exploration

During the mission "Reuniting the Families", you have to shoot down a group of SWAT team and then enter the motel to save Sweet. Beating the SWAT, instead of getting into the motel, you can travel all around the entire map and enter all the restricted areas like the military base and the maps that are locked. You will have no wanted level and no cops will chase you. You can explore the entire map freely without taking risk. This is the best time to confirm vehicle and item locations and to collect the snapshots, oysters and horseshoes.

FreeVehicle Repair

For free and fast car repair, park your car in one of your garages, back away to let the door close, then step towards the garage so the door opens again. The car will be instantly repaired of all dents, etc.

This is especially useful if you have an expensive modded car that you want to keep for certain ingame stats.

NOS recharge without waiting.

Instead of having to wait for the NOS to recharge to use again, exit then enter the car, and you can use the NOS again.

Restricted areas open for you

During Woozie's mission "Amphibian Assault", the wanted level system is disabled. You can now travel everywhere in the game including the restricted areas like the Eastern naval base and all police stations without the cops chasing you. This is time to collect the two oysters in the extremely dangerous naval base without being shot.

Secrets :

Basketball Tricks

Click the left mouse button while playing basketball to do tricks with the ball.

Choose size of the Moon

Shoot it with sniper to make it change size from bigger to smaller and vice versa.

Edit the stats of any vehicle in game.

First browse to your GTA:SA install directory, it will look something like this:

`C:\Program Files\Rockstar Games\GTA San Andreas\`

Then go to the data directory. **MAKE A BACKUP OF ANY FILES BEFORE YOU EDIT THEM.** To edit the vehicle stats, open the **handling.cfg** file in notepad. As you can see, all the info on every vehicle is in there. Follow the instructions in the comments to find out how to edit it.

You can do anything like make a Rhino as light as a PCJ600 and control just as well.

Basically, you can edit anything in the game from these files. Just be careful what you edit and leave them as sane values to prevent glitches.

Free Money

Go to a strip club and stand in front of a stripper when the people watching them gives them money CJ will take it instead since you are where they put the money

Save two cars in your garage

This works in the same way as the previous games. Normally you can only save one car in your garage, but with this you can save two or more! All you have to do is get your two or however many cars and bring them up to your garage. Drive one of them until the garage door opens, and then drive it half way in and get out of the car. This will keep the door open for you. Next, get into the other car and drive that all the way into the garage. Then get into the car half way in and drive it the rest of the way in and get out and leave the garage. Et viola! You now have two cars stored in your garage!

Stop gang attack on your territory.

To stop other gangs from attacking your territory, just save you game, this will stop the gang war and you won't have to fight them.
